Granville OH 43023

Dear Hoke,

On behalf of Denison's Department of Chemistry and Biochemistry, I'm delighted to let you know that the faculty has voted unanimously to designate you a Junior Departmental Fellow. (I know you are only "sort of" a junior, but we felt it best to honor you with the cohort of students that you have been most nearly identified with.) This award acknowledges not only your superior academic performance and service to the department, but also your exemplary attitude and contributions to a positive climate in the department. You are, in short, someone we view as a role model for other students in this department.

This promises to be an exciting year for the department and the university. We hope that as we greet visitors and seek student opinion on departmental policies you will step forward and be ambassadors for the department and for your fellow students.

Congratulations on your achievements at Denison! We wish you continued success and are grateful for your many contributions to our community.

Sincerely,

A handwritten signature in dark ink that reads "Michael M. Fuson". The signature is written in a cursive, flowing style.

Michael M. Fuson
Associate Professor and Chair
Department of Chemistry and Biochemistry
